Subject Index

A

ACETHYDRAZONES
as hypolipidemic agents, 391
ACID CHOLESTERYL ESTER HYDROLASE
inhibitor, isolated from rat serum, 775
N-ACYLAMINO ACIDS synthesis of, 260
ADIPOSE FATTY ACIDS
effect of rapid weight loss, 798
AGING
effect on Δ6 desaturase, 354
effect on dolichol metabolism, 586
ALBUMIN
binding of docosahexaenoic acid to, 166
binding of galactosylsphingosine to, 65
binding of steroid hormones to, 633, 711
ALFALFA
dietary effects on gallstones, 143
ALKYLACYLGLYCEROLS
of Japanese oyster, 363, 624
quantitative analysis of, 748
separation by HPLC, 108
N-ALKYL SEMICARBAZONES
as hypolipidemic agents, 391
ALKYNOIC ACIDS
synthesis of, 821
ANDROSTERONE
binding by lipoproteins, 711
ANTI-GLOMERULAR BASEMENT MEMBRANE NEPHRITIS
dietary effects of α-linolenate/linoleate on, 267
APOLIPOPROTEIN A-I
inhibitory effect on acid cholesteryl ester hydrolase, 775
APOLIPOPROTEINS B
from rat chylomicrons, carbohydrate content in, 665
in dairy cow serum, 575
ARACHIDONIC ACID
inhibition of interferon antiviral activity by, 321
in rat heart, and diabetes, 307
metabolism in human endothelial cells, 211
metabolites, lipoxygenase pathway, 849
ASCORBIC ACID, *see also* vitamin C
dietary effects of, in guinea pig, 199
ATPase
activity in fibroblasts, 73
AUTOXIDATION
of polyunsaturated triacylglycerols, 33, 40, 48

B

BILE ACIDS
dihydroxy, intestinal absorption of, 11
effect on deoxycholate 7α-hydrolase activity of, 706
metabolism of, effect of dietary fiber on, 335
Separation by GLC of, 753
BILE SALT-STIMULATED LIPASE
hydrolysis of pyrene-acyl esters by, 428
BLACK CURRANT SEED OIL
protective effect against endotoxin, 491
BLEOMYCIN
stimulation of choline uptake by phospholipids, 863
BUTYRYLCHOLINESTERASE
stimulation by dietary fish oil, 779

C

CALCIUM
dietary, effect on lipids of mucosal membrane, 379
CARBONYL COMPOUNDS
formed from lipids upon UV-irradiation, 460
CARBOXYLESTER LIPASE
pancreatic, purification of, 760
pancreatic, hydrolysis of pyrene-acyl esters by, 428
CARDIOLIPINS
fatty acid profiles of, in rat, 455
CARNITINE PALMITOYLTRANSFERASE
eicosapentaenoic acid effect on, in rat liver and heart, 546
CAROTENOIDS
of human colostrum, 159
CATFISH
as model for taste receptor study, 181
CEREBRAL PALSY
phospholipid metabolism in, dietary effects, 639
CHILLING INJURY
of grapefruit, protective effect of squalene on, 807
CHIRAL COLUMN
for HPLC, separation of monoacylglycerol enantiomers, 398
CHIRAL DIACYLGLYCEROLS
HPLC separation of, 349
CHOLECALCIFEROL
glyceroamidothiophosphates of, 149
CHOLESTEROL
contents in platelets, 371
contents in rat plasma, dietary effect on, 187
dietary, effect on phospholipids, in dog, 27
enzymatic assay for, interference by LCAT inhibitors, 341
homeostasis, effect of prostaglandin E_1, 767
HPLC analysis of, 738
intermembrane transfer of, 669
metabolism, effect on gallstones, in dog, 143
metabolism in rat liver, 93
role in gap junction assembly and function, 419
role in microsomal membrane, review, 581
synthesis in cultured cells, inhibition by compactin, 685
synthesis in cultured cells, inhibition by lovastatin, 177
synthesis in hamster, fatty acid dietary effect, 815
transfer between erythrocytes and plasma, 529
transfer from model chylomicrons to HDL, in rat, 701
uptake after intestinal resection, in rat, 594
CHOLESTEROL 7α-HYDROXYLASE
activity in hepatic microsomes, 706
CHOLESTERYL ESTER
analogues, effect on lipoprotein lipid transfer, 216
metabolism in cultured fibroblasts, 311
CHOLESTERYL ESTER HYDROLASE
isolation from rat liver, 221
CHOLESTERYL ESTER-TRIGLYCERIDE TRANSFER PROTEIN
isolation from human plasma, 216
CHOLESTYRAMINE
effect on cholesteryl ester hydrolase, 221
effect on retinyl palmitate hydrolase, 221
effect on triglyceride lipase, 221
CHOLIC ACID
effect on deoxycholate 7α-hydroxylase, 706
CHOLINE
analogues, incorporation into phospholipids, 311
effect on phosphatidylcholine synthesis, 135
uptake into phospholipids, bleomycin stimulated, 863
CHOLINE-DEFICIENT DIET
effect on phosphatidylcholine hydroperoxidation, 565
CHOLINEPHOSPHOTRANSFERASE
partial purification of, hamster tissue, 122
organ and subcellular distribution of, 296
COLLAGEN
effect on platelet aggregation, 166
COMPACTIN
inhibition of cholesterol synthesis by, 685
CTP:PHOSPHOCHOLINE CYTIDYLYLTRANSFERASE
effect of phosphatidylethanolamine and oleic acid on, 100
CYTOCHROME P-450
epoxygenase metabolites, synthesis of, 481
contents in mouse liver microsomes, 78

D

DEOXYCHOLATE 7α-HYDROXYLASE
activity in hepatic microsomes, 706
DEOXYCHOLIC ACID
effect on cholesterol 7α-hydroxylase, 706
effect on deoxycholate 7α-hydroxylase, 706
uptake by rat mucosal cells, 11
Δ6 DESATURASE
from brain and liver, effect of aging on, 354
DESMETHYLSTEROLS
in *Chenopodium* and *Atriplex*, 61
DESMOSTEROL
HPLC analysis of, 738
DIABETES MELLITUS
effect of eicosapentaenoic acid administration on, 541
insulin-dependent, effect on myocardial fatty acids, 307
DIACYLGLYCEROL(S)
content in platelets, 371
fatty acid composition of, in Japanese oyster, 363
molecular species, in Japanese oyster, 624
quantitative analysis of, 748
synthesis in smooth muscle cells, 675
DIET
canola oil-rich, effect on plasma phospholipids, 598
cereal-pulse, 763
choline-deficient, effect on lipid hydroperoxidation, 565
high fat, effect on fatty acid composition, 316
high fat, effect on phospholipid composition, 278
milk replacer with erucic acid, for piglets, 729
modulation of phospholipid fatty acids by, in rat, 517, 559
soy-oil based, effect on erythrocytes, in cerebral palsy, 639
very low calorie, effect on adipose 18:3ω3, 798
DIETARY SUPPLEMENT(S)
alfalfa-corn, effects on gallstones, in dog, 143
calcium, effect on mucosal membrane lipids, 379
corn and menhaden oils, effect on lipid peroxidation, 125
fatty acids, effect on cholesterol synthesis, in hamster, 815
fiber, effect on bile acid metabolism, in rat, 335
fish oil, effect on ω3 fatty acids in muscle, 553
fish oil, effect on phospholipids and prostaglandins, 27
linoleic acid, effect on brain fatty acids, 465
linoleic acid, effect on cardiolipins, in rat, 455
α-linolenic acid, effect on n-3 fatty acids, in fish, 246
α-linolenic/linoleic acids, effect on erythrocytes, 793
α-linolenic/linoleic acid, effect on nephritis, 267
menhaden oil, and lipid peroxidation, in rat, 194
palm oil, effect on HDL lipids, 187
polyunsaturated lipids, effect on erythrocytes, 111
PUFA, effect on lipid metabolism, in rat, 505
PUFA, effect on phospholipids in murine macrophages, 827
saturated fat, effect on prostanoid production, in rat, 719
α-tocopherol, in guinea pig, 199
vitamin E, effect on lipid peroxidation, 125
DIMETHYLETHANOLAMINE
incorporation into phospholipids, in cultured cells, 311
DOCOSAHEXAENOIC ACID
effect on platelet aggregation, 166
DOCOSAPENTAENOIC ACID
absorption in rat lymph, 6
rac-1-DODECYLGLYCEROL
synergism with penicillin G, 119
DOLICHOL
occurrence in murine tissues, effect of age, 587
metabolism in rat liver, 93

E

EICOSAPENTAENOIC ACID
absorption of, in rat lymph, 6
accumulation of, in phospholipids, dietary effect on, 598
effect on microalbuminuria, in diabetics, 541
effect on VLDL secretion, in rabbit hepatocytes, 534
metabolism in rat, dietary effects on, 719
reaction with *m*-chloroperoxybenzoic acid, 481
stimulation of carnitine palmitoyltransferase by, 546
stimulation of peroxisomal β-oxidation by, 546
EICOSATETRAENOIC ACID
8,15-dihydroxy, synthesis in fish gill, 849
EICOSATRIENOIC ACID
dietary, effect on phospholipids, in mouse, 473
ENDOTHELIAL CELLS
human, arachidonic acid metabolism in, 211
human, uptake of α-tocopherol by, 17
ENDOTOXIN
metabolic responses to, in guinea pig, 491
EPA, *see* eicosapentaenoic acid
EPITHELIAL CELLS
colonic, fatty acid oxidation in, 646
EPITHELIUM
of taste organ, phospholipid metabolism in, 181
ERUCIC ACID
dietary, effect on cardiac phospholipids, in piglets, 729
ERYTHROCYTE
deformability, effect of dietary fatty acids on, 793
ESTERASE-1
activity in rat plasma, effect of fish oil on, 779

F

FAB-MS, *see* fast atom bombardment-mass spectrometry
FAST ATOM BOMBARDMENT-MASS SPECTROMETRY
of inositol phospholipids, 328
FAT CELLS
isolation of, from adipose tissue, 412
FATTY ACID(S)
analysis of, TLC-GLC method, 742
branched, in marine sponge, 383
deuterated, synthesis of, 130, 401
dietary, saturated, effect on prostanoids, in rat, 719
dietary, PUFA, metabolism in rat, 505
effect of oxysterols on, 172
effect on VLDL secretion, in rabbit hepatocytes, 534
fish oil-derived, recovery in rat lymph, 6
free, effect on steroid hormone binding by BSA, 633
incorporation and desaturation, in fungi, 787
in marine sponge, 69, 235
long chain, absorption of, in rat, 11
methyl-branched, in marine sponge, 383
methyl esters, synthesis of, 260
monounsaturated, in jujube pulp lipids, 602
nonesterified, in myocardium of diabetic rat, 307
odd-chain, in marine sponge, 383
of carrot inositol phospholipids, 328
of cell membrane phospholipids, dietary effects on, 559
of cod phosphatidylinositol, tissue specificity, 691
of cultured smooth muscle cells, 172
of dogfish egg lipids, 724
of frog liver, effect of seasonal cycle, 443
of glycerophospholipids, in Japanese oyster, 363
of lean and obese rat tissue, 517
of marine oil capsules, 523
of membrane phospholipids, 301
of myocardial cells, 238
of rat organs, 465, 505
of rat tissue, and obesity, 517
oxidation, in colonocytes, 646
profiles, of rat cardiolipins, 455
PUFA, chain elongation of, in endothelial cells, 211
PUFA, dietary effects of, in rainbow trout, 241
PUFA, dietary effects of, in skeletal muscle, 553
PUFA, effect on macrophage phospholipids, 827
PUFA, effect on membrane properties, 301
PUFA, n-3 and n-6, metabolism of, in fish cells, 435
PUFA, 20:4n-6 and 20:4n-7, separation by capillary GLC, 859
short-chain, utilization by rat colonocytes, 316
trans, trans, Δ5,9 from marine sponge, 835
unsaturated, 20 and 22-carbon, metabolism in myocytes, 854

FATTY ACID BINDING PROTEIN
antibody to, 11
FATTY ACID HYDROLASE
activity, in mouse liver microsomes, 78
FATTY ALCOHOLS
determination of, fluorometric assay for, 578
FIBROBLASTS
phospholipid metabolism in, 73
FISH OIL
deodorizing of, distillation method, 170
dietary, effect on phospholipid fatty acids, 559
dietary, effect on phospholipid synthesis, 811
dietary, effect on triacylglycerol synthesis, 811
dietary, effect on unsaturated fatty acid metabolism, 854
fatty acids, absorption of, 6
stimulation of butyrylcholinesterase by, 779
FUNGI
fatty acid incorporation and desaturation in, 787
linoleic acid metabolism in, 54

G

GALACTOSYLSPHINGOSINE
binding by albumin, 65
GALLSTONES
effect of alfalfa-corn diet on, in dog, 143
GAP JUNCTION
lipids, review, 419
GAS CHROMATOGRAPHY-MASS SPECTROMETRY
analysis of deuterated fatty acids, 401
GAS-LIQUID CHROMATOGRAPHY
analysis of bile acid oxo and oxo-hydroxy isomers, 753
analysis of carbonyl compounds, 460
analysis of fatty acids from plasma, 742
capillary, separation of 20:4n-6 and 20:4n-7, 859
GC-MS, *see* gas chromatography-mass spectrometry
GLC, *see* gas-liquid chromatography
GLUTATHIONE
effect on lipid peroxidation, 241
GLYCEROAMIDOTHIOPHOSPHATES
of cholecalciferol, 149
GLYCEROPHOSPHOLIPIDS
fatty acid composition of, in Japanese oyster, 363
in Japanese oyster, 624
GUANINE-MALONDIALDEHYDE
isolation from urine, 82

H

HDL, *see* high density lipoproteins
HEPARIN
effect on lipoprotein lipid transfer, 701
HEPATOCYTES
secretion of VLDL by, 534
5-HETE, *see* 5-hydroxyeicosatetraenoic acid
18-HEXACOSENOIC ACID
occurrence in sponge, 235
HIGH DENSITY LIPOPROTEINS
binding of sterol hormones by, 711
effect of Triton WR 1339 and heparin on, 701
of rat plasma, effect of dietary palm oil on, 187
of rat plasma, sphingomyelin metabolism, 653
HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY
of alkylacylglycerols, 108, 748
of arachidonic acid metabolites, 849
of chiral diacylglycerols, 349
of cholesterol and desmosterol, 738
of diacylglycerols, 748
of fish oil triacylglycerols, 284
of malondialdehyde, 226
of monoacylglycerol enantiomers, 398
of phospholipid hydroperoxides, 415
of phospholipids, 756
of vitamin K, 406
HORMONE(S)
-sensitive lipase, incorporation into vesicles, 254
steroid, albumin bound, effect of fatty acids on, 633
steroid, interaction with lipoproteins, 711
thyroid, effect on cholesterol metabolism, in rat, 529
HPLC, *see* high performance liquid chromatography
HYDROPEROXIDATION
of phosphatidylcholine, choline-deficient diet induced, 565
5-HYDROXYEICOSATETRAENOIC ACID
metabolism in keratinocytes, 618
HYPERCHOLESTEROLEMIA
in rabbit, effect on platelet lipids, 86
HYPOLIPIDEMIC AGENTS
structure-activity relationship of, 391

I

INSULIN-DEPENDENT DIABETES MELLITUS
effect on nonesterified fatty acids, in myocardium, 307
INTERFERON
receptors, arachidonic acid inhibition of, 321
INTESTINAL ABSORPTION
of bile acids, in rat, 11
IRON
-induced lipid peroxidation, in rat, 194
IRONTHIOCYANATE ASSAY
of phospholipid hydroperoxides, by HPLC, 415
ISCHEMIA
effect on lysophosphatidylcholine metabolism, 357

L

LCAT, *see* lecithin:cholesterol acyltransferase
LECITHIN:CHOLESTEROL ACYLTRANSFERASE
inhibitors, effect on cholesterol and triglyceride assays, 341
stimulation, in hyperthyroid rat, 529
LIGHT-SCATTERING DETECTOR
for HPLC of phospholipids, 756
LINOLEIC ACID
contents in triacylglycerols, 33, 48
conversion to γ-linolenic acid, 54
dietary, effect on cardiolipin fatty acids, 455
dietary, effect on erythrocyte deformability, 793
dietary, effect on nephritis, in rat, 267
dietary, effect on PUFA contents, in rat brain, 465
incorporation by fungi, 54
uptake after intestinal resection, 594
LINOLENIC ACID
contents in triacylglycerols, 40, 48
dietary, effect on erythrocyte deformability, 793
dietary, effect on nephritis, in rat, 267
dietary, effect on phospholipid fatty acids, 473
LIPASE(S)
activity of, assay based on umbelliferyl esters, 661
activity of, stimulation by bile salts, 428
as tool for steryl ester analysis, 292
from *Rhizopus delemar*, plasmalogen purification by, 344
hormone sensitive, incorporation into vesicles, 254
pancreatic, isolation, 760
purification from *Geotrichum candidum*, 841
LIPID METABOLISM
in myocardial cells, 238
in rabbit hepatocytes, 534
in taste organ epithelium, 181
LIPID PEROXIDATION
effect of glutathione on, in liver microsomes, 241
effect on erythrocyte membranes, 111
guanine-malondialdehyde adduct as marker for, 82
induced by choline-deficient diet, 565
induced by UV-irradiation, analysis of, 460
in rat tissue, dietary effects on, 124
iron induced in rat, dietary effects on, 194

LIPID TRANSFER PROTEIN
effect on cholesterol intermembrane transfer, in vesicles, 669
LIPIDS
fecal, effect of dietary calcium on, 379
in gap junction assembly and function, review, 419
of dogfish egg yolk and embryo, 724
of epidermal tissue, 695
of erythrocytes, dietary effects in cerebral palsy, 639
of housefly, 695
of hypercholesterolemic rabbit platelets, 86
of jujube pulp, 602
of marine sponge, 383
of mucosal membrane, 379
of rainbow trout, 246
oxidized, determination of, 578
quantification of, TLC/FID Iatroscan assay, 570
LIPID SYNTHESIS
in rabbit hepatocytes, 534
in smooth muscle cells, effect of oxysterol on, 172
LIPOFUSCIN
effect on dolichol metabolism, in mice, 586
LIPOPROTEIN LIPASE
hydrolysis of steryl esters by, 292
LIPOPROTEINS
binding of sterol hormones by, 711
effect of hypolipidemic drugs on, in rodents, 391
effect of Triton WR 1339 and heparin on, in rat, 701
interaction with prostaglandin E_1, 767
of dairy cow serum, 575
secretion by rabbit hepatocytes, 534
LIPOXYGENASES
activation in keratinocytes, 618
activity in fish gill, 849
LOVASTATIN
inhibition of cholesterol synthesis by, 177
LOW DENSITY LIPOPROTEINS
binding of steroid hormones by, 711
effect of Triton WR 1339 and heparin on, in rat, 701
LYSOPHOSPHATIDYLCHOLINE
incorporation into myocyte sarcolemma, 450
metabolism, altered by ischemia, 357
LYSOPHOSPHATIDYLINOSITOL
identification by FAB-MS, 328
LYSOPHOSPHOLIPASE
pancreatic, isolation of, 760
LYSO PLATELET ACTIVATING FACTOR
total synthesis of, 606

M

MALONDIALDEHYDE
HPLC assay, for biological samples, 226
MEMBRANE
cholesterol, review, 581
modulation by phospholipid fatty acids, 301
mucosal, effect of dietary calcium on, 379
of myocytes, effect of lysophosphatidylcholine on, 450
of peritoneal cells, fatty acid composition of, 559
of sarcoplasmic reticulum, effect of ω3 fatty acids, 553
MENHADEN OIL
dietary, effect on lipid peroxidation, in rat, 194
METHYL ESTERS
of *N*-stearoylamino acids, synthesis of, 260
β-METHYLHEPTADECANOIC ACID
subcellular distribution of, in myocardial cells, 238
10-METHYLOCTADECANOIC ACID
synthesis of, 1
MICROALBUMINURIA
effect of eicosapentaenoic acid ethyl ester on, 541
MONOACYLGLYCEROLS
separation by HPLC, 398
MONOMETHYLETHANOLAMINE
incorporation into phospholipids, 311
MONOSACCHARIDES
identification of, in apolipoprotein B-48, 665

N

NMR SPECTROSCOPY
of alkynoic acids, 821
of lyso platelet activating factor, 606

O

19-OCTACOSYNOIC ACID
synthesis of, 821
OLEIC ACID
activation of CTP:phosphocholine cytidylyltransferase by, 100
effect on VLDL secretion, in rabbit hepatocytes, 534
β-OXIDATION
stimulation by eicosapentaenoic acid, in rat, 546
OXO-HYDROXY BILE ACIDS
separation by GLC, 753
OXYSTEROLS
modulation of lipid synthesis by, in cultured cells, 172

P

PALMITIC ACID
effect on platelet phospholipids, during aggregation, 371
PENICILLIN G
synergism with *rac*-1-dodecylglycerol, 119
PHOSPHATIDYLCHOLINE
from *Crypthecodinium cohnii*, 115
hydrolysis of, stimulation by vasopressin, 675
hydroperoxidation of, 565
synthesis of, in rat, 135
vesicles, lipase incorporation into, 254
PHOSPHATIDYLETHANOLAMINE
activation of CTP:phosphocholine cytidylyltransferase by, 100
PHOSPHATIDYLINOSITOL
identification by FAB-MS, 328
metabolism in plasma membranes, 273
occurrence in cod, tissue specificity, 691
PHOSPHATIDYLSERINE
in vesicles, and cholesterol intermembrane transfer, 669
PHOSPHOLIPASE A
activity of ventricular myocytes, effect of PUFA on, 301
PHOSPHOLIPASE A_1
activity, in taste organ epithelium, 181
PHOSPHOLIPASE A_2
pancreatic, isolation of, 760
purification of plasmalogen by, 344
PHOSPHOLIPASE D
activity, in taste organ epithelium, 181
stimulation by vasopressin, 675
PHOSPHOLIPASES
of taste organ epithelium, 181
PHOSPHOLIPID(S)
cardiac, dietary effect on, in piglets, 729
fatty acid composition of, in peritoneal cells, 559
hydroperoxides of, HPLC analysis of, 415
incorporation of fatty acids into, 695
in plasma, effect of canola oil diet on, 598
in plasma, effect of palm oil diet on, 187
metabolism, during platelet aggregation, 371
metabolism, in cultured fish cells, 435
metabolism, in hamster lung tissue, 863
metabolism , in murine macrophages, dietary effect, 827
metabolism, in rat heart and myocytes, 854
metabolism, in taste organ epithelium, 181
modification of head group of, in cultured cells, 311
of cultured fibroblasts, 73
of cultured ventricular myocytes, 301
of fat cell plasma membrane, dietary effects on, 278

of Japanese oyster, fatty acid composition of, 363
of mouse peritoneal macrophages, 613
of mouse tissues, dietary effects on, 473
of rabbit platelets, 86
separation by HPLC, 756
synthesis of, effect of dietary fish oil, 811
synthesis of, in dog biliary tract, 27
PHYTOLACCACEAE
sterol composition of, 230
PLASMALOGEN
purification of, from bovine heart, 344
PLASMA MEMBRANE
metabolism of phosphatidylinositol in, 273
of fat cells, dietary effects on phospholipids, 278
of peritoneal cells, fatty acid composition of, 559
uptake of tocopherol by, 17
PLATELET AGGREGATION
effect of dietary saturated fat on, in rat, 719
effect of docosahexaenoic acid and collagen on, 166
effect on palmitic acid incorporation, 371
PLATELETS
rabbit, abnormalities of, in hypercholesterolemia, 86
POLYUNSATURATED FATTY ACIDS, *see also* fatty acids, PUFA
chain elongation of, 211, 435
desaturation of, 435
of membrane phospholipids, in cultured myocytes, 301
of phospholipids, in Japanese oyster, 363
PROSTACYCLINS
in rat plasma, dietary effects on, 187, 719
PROSTAGLANDIN E_1
interaction with lipoproteins, and cholesterol homeostasis, 767
PROSTAGLANDINS
synthesis of, in dog gallbladder, 27
PROSTANOIDS
in rat plasma, dietary effects on, 719
PROTEIN KINASE
activators of, effect on hydrolases and lipases, 221
PSYCHOSINE, *see* galactosylsphingosine
PYRENE-ACYL ESTERS
fluorescent, hydrolysis of, 428

R

RECEPTOR
of taste stimuli, 181
RETINOL
intestinal absorption of, 549
RETINYL PALMITATE
intestinal absorption of, 549
RETINYL PALMITATE HYDROLASE
effect of cholestyramine and protein kinases on, 221

S

SEROTONIN
uptake by platelets, 86
SILVER ION COLUMN
for HPLC separation of triacylglycerols, 284
SPHINGOMYELIN
of HDL, metabolism in rat plasma, 653
SPONGES
identification of new fatty acid in, 69, 235
occurrence of *trans,trans* Δ5,9 fatty acids, 835
SQUALENE
protective role against grapefruit freezing injury, 807
STEAROYLAMINO ACIDS
synthesis of, 260
STEROID HORMONES
binding by albumin, effect of fatty acids on, 633
interaction with lipoproteins, 711
STEROLS
of *Chenopodium* and *Atriplex*, 61
of marine sponge, 383
of phytolaccaceae, 230
STEROL TRANSFER PROTEINS
and cholesterol intermembrane transfer, in vesicles, 669
STERYL ESTERS
quantitative analysis of, by GLC, 292
SYNTHESIS OF
alkynoic acids, 821
cholesterol, in cells, inhibition by compactin, 685
cholesterol, in hamster, dietary effect, 815
deuterated fatty acids, 130
diacylglycerol, 675
lyso platelet activating factor, 606
10-methyloctadecanoic acid, 1
19-octacosynoic acid, 821
phospholipids, and dietary fish oil, 811
phospholipids and prostaglandins, in dog, 27
taurine, in rat, dietary effect on, 335
15-tetracosynoic acid, 821
triacylglycerols, and dietary fish oil, 811
triacylglycerols in cultured fibroblasts, 311

T

TAURINE
synthesis, effect of dietary fiber on, in rat 335
TEMPERATURE
effect on phospholipids of *Crypthecodinium cohnii*, 115
15-TETRACOSYNOIC ACID
synthesis of, 821
TETRAHYDROLIPSTATIN
effect on retinol intestinal absorption, 549
THIOSEMICARBAZONES
as hypolipidemic drugs, 391
THYROID HORMONE
and cholesterol metabolism, in rat, 529
TLC/FID IATROSCAN
application of Chromarods-SIII for, 570
α-TOCOPHEROL
biokinetics of, in guinea pig, 199
reaction with methyl linoleate-peroxyl radicals, 152
uptake, by human endothelial cells, 17
TRIACYLGLYCEROLS
analysis of, by HPLC with silver ion column, 284
enzyme assay for, effect of LCAT inhibitors on, 341
metabolism of, in perfused rabbit heart, 497
polyunsaturated, autoxidation of, 33, 40, 48
separation of, by HPLC, 349
synthesis of, 48
synthesis of, effect of dietary fish oil, 811
synthesis of, in cultured fibroblasts, 311
transfer of, between lipoproteins, in rat, 701
TRIFLUOPERAZINE
inhibition of lipid synthesis by, in fungi, 787
TRIGLYCERIDE LIPASE
effect of cholestyramine and protein kinase on, 221
TRITON WR 1339
effect on lipoproteins, in rat, 701

U

UMBELLIFERYL ESTERS
in assay of lipase activity, 661

V

VASOPRESSIN
stimulation of Phospholipase D activity by, 675
VERY LOW DENSITY LIPOPROTEINS
secretion of, in rabbit hepatocytes, 534
VESICLES
cholesterol intermembrane transfer in, 669

incorporation of lipase into, 254
VITAMIN C
dietary, effect on α-tocopherol biokinetics, 199
VITAMIN E
and glutathione, effect on lipid peroxidation of, 241
deficiency, 22
dietary, effect on lipid peroxidation, in rat, 125, 194
dietary, in guinea pig, 199
VITAMIN K
separation by HPLC, 406
VLDL, *see* very low density lipoproteins

Lipids
